

《CITY OF STEAM》

✚ **INDUSTRY!** City of Steam is a browser-based, Free-to-play online RPG in which players explore an industrial world of clockworks, steamworks, combustion and lighter-than-air phlogiston.

✚ **FLAVOR!** City of Steam is packed with detail! There is no endless boring terrain no travel time, no featureless barrens. Intricate layers of depth diversity, and intrigue can be found in even the smallest locations. Large textual signs lead you to shops dungeons, and other important landmarks It's literally bursting with flavor.

✚ **HISTORY!** Massive networks of pipes, gears, bridges, tunnels and towering spires have been built on years of neglect and abandonment. And in the cracks and crevasses, untold evils thrive unchecked. Every monument, building and suburb has its own tale to tell.

✚ **POLITICS!** It is up to the new age of hardy adventurers to aid the Triumvirs, the local governing body, to clean up the decaying, corrupt, and infested regions of the city. But the plot thickens when powerful factions emerge and begin to set mysterious agendas in

CUSTOMIZATION

Characters are anything but ordinary in City of Steam. A great selection of races, hairstyles classes, and armor styles grant the player almost unlimited customization.

✚ **RACES:** Various nationalities and subraces of humans, elves, greenskins, and dwarves grant 26 race model choices.

✚ **EQUIPMENT:** Display your accumulated armory in all its glory! Character avatars are loaded with equipment mount points so that players can show off 6 interlocking, upgradeable pieces of armor, 6 one-handed weapons and 3 great two-handed weapons.

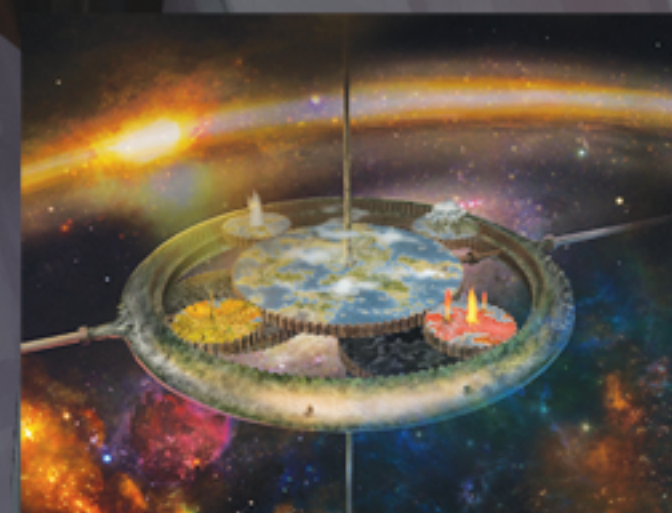

Beautifully rendered, lightweight scenes utilizing Unity 3D

✚ **HAIRSTYLES:** Each hairstyle is a combination of fringe, top, base back, sides, beard, and moustache elements.

✚ **CLASSES:** Seven classes, each with a complement of 30 unique special abilities and extra ranks for customization give players choices that can fit any preferred playstyle.

✚ **EFFECTS:** There are tons of different area-effect shapes and sizes, as well as all sorts of buffs, debuffs, damage types, walls and auras. Some abilities create obstacles or dangerous clouds. Others explode in a flash of light. Variety is the name of the game.

City of Steam is set in Nexus at the heart of the World Machine

GAME FEATURES

TECHNICAL:

Each level is a gameplay package with a prescribed amount of action, monsters, loot and exploration. When you are itching for that gamer fix, we will do our best to hit that spot... in record time! We have a range for your desired timeframe, from just 10 mins to longer, more dedicated stretches of gameplay.

City of Steam is based on The New Epoch RPG books

✚ **AAARGH! BRICKS!** The levels in City of Steam are assembled dynamically from a wide variety of structural elements. These only need to be downloaded once – after that, the architectural possibilities are endless!

✚ **LIGHTWEIGHT!** You have absolutely no idea how small City of Steam is to download! In fact, we don't even know how we accomplished it! Efficient allocation of map elements makes even the largest scenes only a few megabytes... how is that even possible? You're just going to have to play it to believe it!

✚ **INTERACTIVE ENVIRONMENTS!** Break barrels, unlock chests, take cover behind pillars open doors, and discover hidden secrets.

✚ **STREAMING!** Our intelligent update system ensures you only download what you need We hate long load times. Who doesn't?

✚ **MONSTERS!** Each monster has its own special attacks and defenses. Monsters can pull off any sort of ability that players can! Watch out for walls, explosions, summoners healers, and more. Their intellect may even surprise you as they work together to defeat you.

REQUIREMENTS:

Even on the very lowest settings City of Steam sets an impressive graphical standard for browser gaming.

CITY OF STEAM RUNS ON NEARLY ANY WEB BROWSER
